

Public corruption, U. S. Attorney's Office from N/A murder cover-up of rich citizen's death

My name is William Anthony Fagnes. I'm presently being held in false imprisonment on a forged indictment scheme at the Atlanta Federal Prison Camp in Atlanta, Georgia, which is by abuse of power from corrupt officials from the Northern District of Alabama who have committed and participated in one of the most heinous murder cover-up crimes in American history, that originated in Birmingham, Alabama by concealing a rich citizen's murder, Ms. Ada Lee Mays Jones.

The culprits involved in the atrocity are employees from the U. S. Attorney's Office of Alice H. Martin. They covered up a murder for the love of money,

which is beyond imagination.

Known for selective prosecution, U. S. Attorney, Alice H. Martin, has been using her powers as a U. S. Attorney to help her Assistant U. S. Attorneys help keep the crime of concealing a local citizen's death, Ms. Ada Jones (from hereon), who was fatally poisoned on November 14, 1988 with an overdose of heart medication and cocaine in a conspiracy by family members and the trustee of Ms. Ada Jones' last will and testament, Attorney Mary Lee Abele. They all conspired together to make it appear that Ms. Ada Jones died of natural causes in her sleep, which subsequently backfired on the willing participants involved in murdering Ms.

Ada Jones. The motive behind the heinous crime is the true fact that Ms. Ada Jones, a Black heiress changed her last will and testament at the Jefferson County Probate Court in Birmingham, Alabama. The value of the estate was worth over 35 million dollars in assets, which was mainly cash and stocks in November 1988.

Ms. Ada Jones was bequeathed this inheritance from her mother, Dr. Anna Wilson Harrell, a longtime employee and coremaker of Stockholm Valve Pipe and Fittings, Inc.; Mrs. Harrell died April 13, 1985.

As the true heir to the estate of Ms. Ada Jones, which, as of to-

see CORRUPTION, page A11.
