

## Public Corruption at the U.S. Attorneys' Office, in the murder and cover-up of the late Ms. Ada Mays Jones .... "A Rich Citizen's Death"

Follow up from June 12, 2008

My name is William Anthony Fagnes, I am being held in peonage at the Atlanta Federal Prison camp in Atlanta Georgia. On June 12, 2008, I was featured in a news story related to the death of Mrs. Ada Mays Jones, and because I have information related to her death that involves the U. S. Attorney's Office, FBI, Federal Judges and members of the legislature I have been incarcerated to suppress, conceal and mutilate evidence relating to the truth.

The case that was manufactured against me and the cover-up to keep me held in prison on a fraudulent indictment scheme is an abuse of power by the district judges, appeals court judges in both Alabama and Georgia, who have conspired together to protect bar members' misconduct in this criminal enterprise operating under the "Color of Law."

This case was created to embezzle the estate of Ms. Ada Mays Jones out from under the rightful heirs, Mr. and Mrs. William Anthony Fagnes. Ms. Ada Mays Jones was the richest African American woman in Alabama in the 1980s which is the largest murder cover-up conducted by the government against an African American woman since the slave trade in Alabama. This case involves more the 35 million United States dollars. This is why the efforts and activity to lock away the heirs has been so great. The criminal enterprise operates on all levels of government to exercise their powers in efforts to cover for each other from one court to the next.

Ms. Ada Jones was bequeathed this fortune from her mother who was born on December 25, 1898 and passed away on April 13, 1985. Her name was Dr. Anna Wilson Harrell, who was a core maker and long time employee of Stockham Valve Pipe and Fitting, Inc. This company was founded in 1903 by William Herbert Stockham with revolutionary inventions causing rapid growth in the 1900s in the steel industries.

The record shows Dr. Anna Wilson Harrell as a major stockholder until her death and transferred her stock to her daughter Ada. The records of Ms. Ada Mays Jones' late husband have also been removed. Mr. James Chester Jones, who passed away on May 11, 1987, has been hidden and concealed from the public in the Jefferson County Probate Court from the general public.

The criminal enterprise, considering the amount of money at stake, took extra measures to suppress, conceal and mutilate evidence of the murder that took place at the home of Ms. Ada Mays Jones. The coroner knew it was a murder, but the FBI knew the a murder would call for an official investigation, which would have caused exposure that was unwarranted due to the fact government officials had their eyes on the money.

Ms. Ada Mays Jones, a Christian woman, and pillar of the community, who boasted numerous awards for the best flower garden in Alabama for several years "was not" a sixty-nine year old "cocaine user." This was as far from her character as heaven is from hell. Ms. Ada Mays Jones died with undigested cocaine in

Analysis reveals under case file #27-8925658.

Ms. Ada Jones was poisoned on November 14, 1988 with an overdose of heart medication "mixed with cocaine." This mixture induced her heart rate to make it seem as if she died of a heart attack, or natural causes. This was also why her records are hidden in the Jefferson County Court.

Deputy Coroner, Jack Parker of Jefferson County pronounced Ms. Jones dead on November 16, 1988 at 6:37 a.m. at her luxurious home. After receiving conflicting statements from Ms. Ada Jones' niece, who lived with her, the coroner knew that there was something very wrong from the amount of rigor mortis that had set up her body. Ms. Jones had been dead for some time. When the coroner began to start the investigation, the FBI and the U.S. Attorneys began to interrupt to keep the lid on the story and the case. The government stepped in to silence the coroner and make sure that the death certificate stated "natural causes." This way they could manipulate the estate, and remove the rightful heirs without exposure. Meanwhile they could hide her will from the true recipients and cover up the murder, while having no press coverage.

The estate was handled by a probate attorney and her husband. They contacted the probate judge at the court to include him in the conspiracy while hiding the final will belonging to the heirs of the estate. Although it was known that Ms. Jones' niece was the one who poisoned Ms. Jones, the F.B.I. and U.S. Attorneys had thirty-five million reasons not to cause any exposure.

Twenty-three months later, the niece of Ms. Ada Jones was threatening to talk and was found with several bullets in the back of her head. The murder remains unsolved because the murderers will never investigate "themselves."

The rightful heirs did not fear the Criminal Enterprise. While waiting for the attorney for the estate to read the final will and testament, the FBI and U.S. Attorneys were plotting to have him arrested to keep him silent and away from the estate. This criminal activity has been recorded in the Jefferson County Probate Court under case number 128 419. This case is the false value of the Ada Mays Jones' estate that has been embezzled and under the control of the Criminal Enterprises "operating under the Color of law."

The case against William Anthony Fagnes was created to remove him from the general public and keep everything silent. As reported (by me) in the Birmingham Times, June 12, 2008, U. S. Attorney Alice Martin has conspired with the associates "as a leader" to keep me in prison as long as they possibly can. For a complete review of all the facts and documents involving this case: go to William Anthony Fagnes v. United States #2:05-CV-8065-CLS TMP - under the penalty of perjury - Northern District of Alabama, which had been withheld from the public view.

The Criminal Enterprise took advantage of their oath to office as they forced the signature of the foreman of the Grand Jury as well as my signature on a fraudulent plea agreement. Mr. Terrell Clement
